

Now it's (biiip) enough

How to get rid of head lice

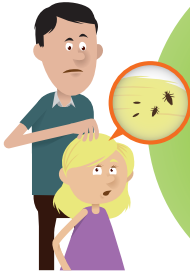

Signs of head lice
Itching scalp
Small flakes in the hair
Lice/lice eggs in the hair

Day 1

If you find lice/lice eggs, you should:

Comb
Treat
Place bedding, hats etc.
in a bag for 48 hours
inform school/day care

Day 7

Comb the hair. Start again on "Day 1" if you find lice. Continue with repellent spray, if the lice have gone

Day 2-6

Once your child is free from lice, then use a repellent spray to avoid a new infestation

Day 3

Take the bedding hats etc. out of the bag

Why it's so hard to get rid of lice

One louse can quickly become many more – see how here
